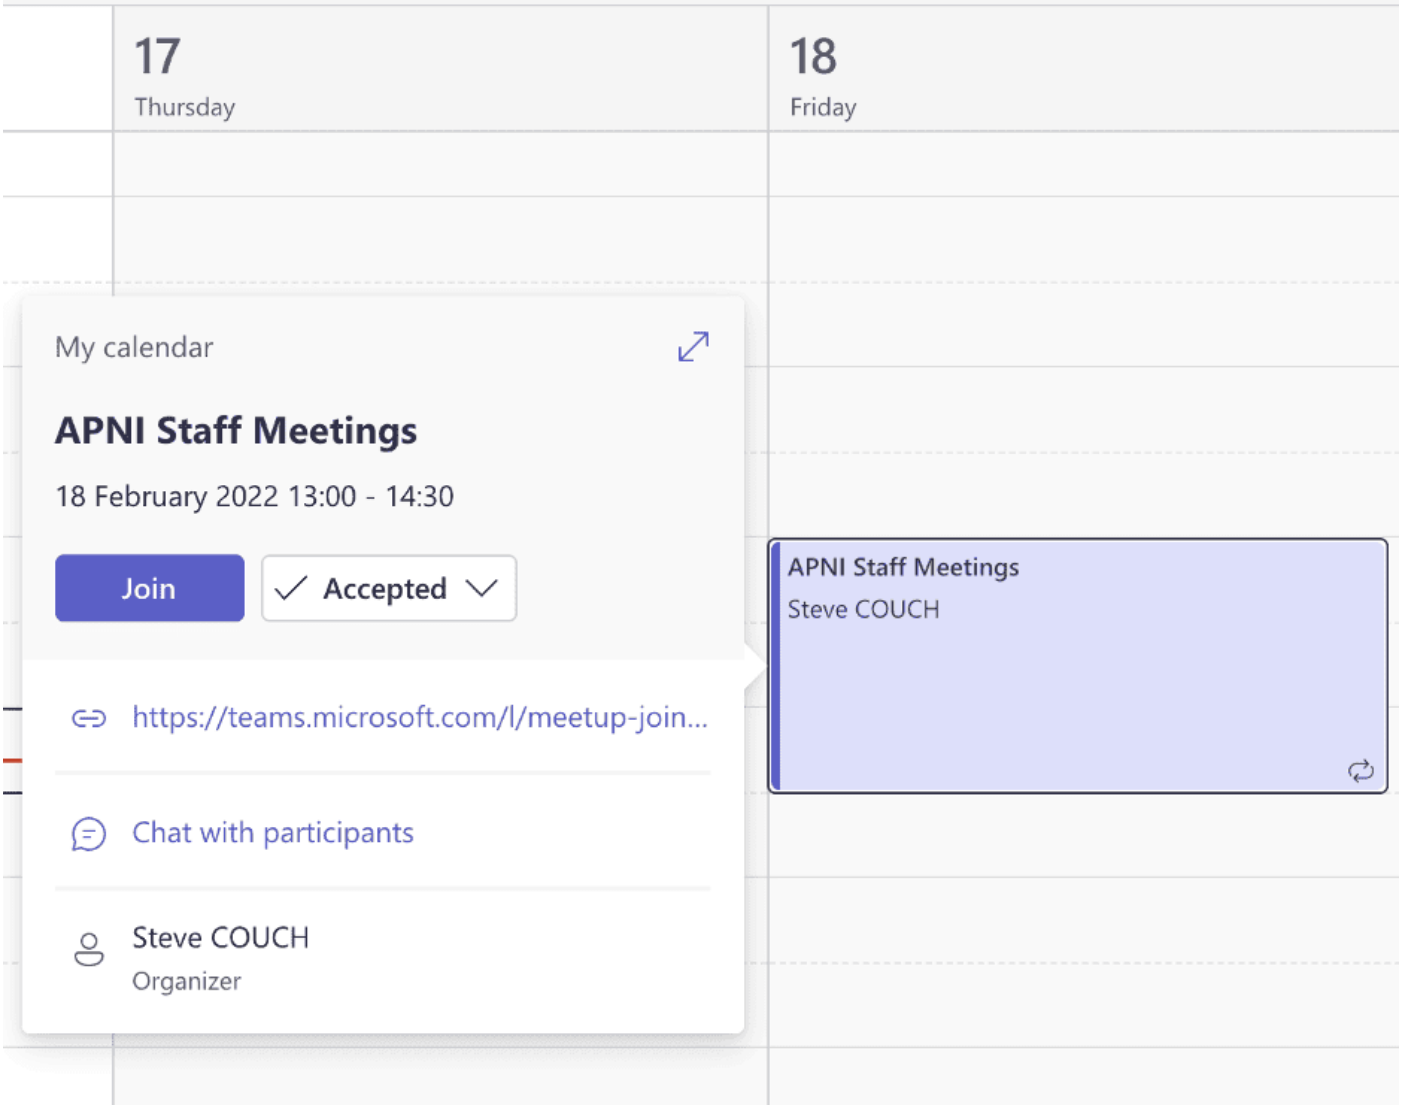
How to create custom background for Teams?

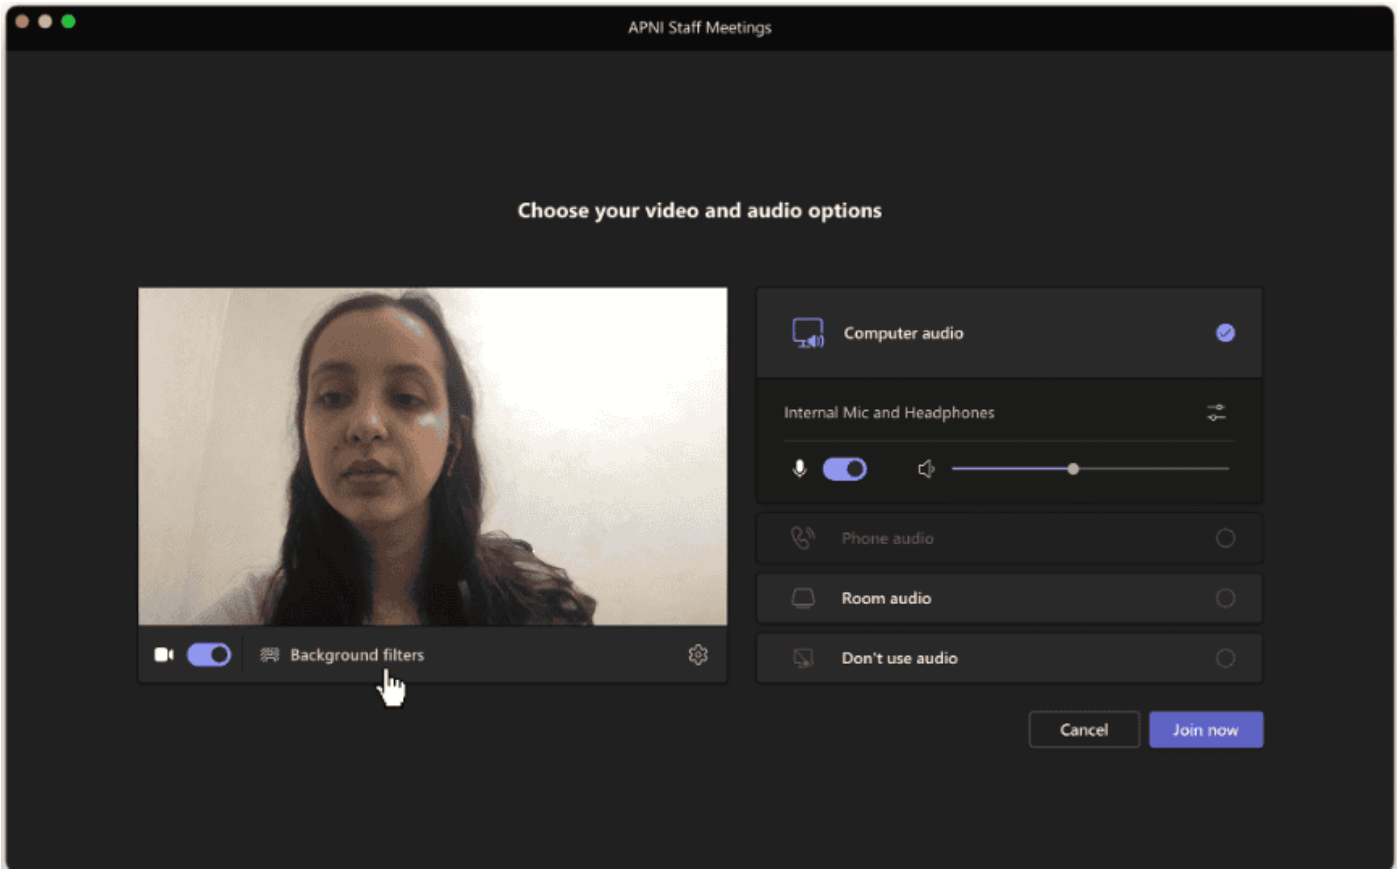
General FAQs · https://www.apni.net/Knowledgebase-APNI/how-to-create-custom-background-for-teams/

Find below, a step by step guide to changing the background photo of Teams. Background images are available for download: https://apni.filecamp.com/s/UemYYgHUajRXVprv/d

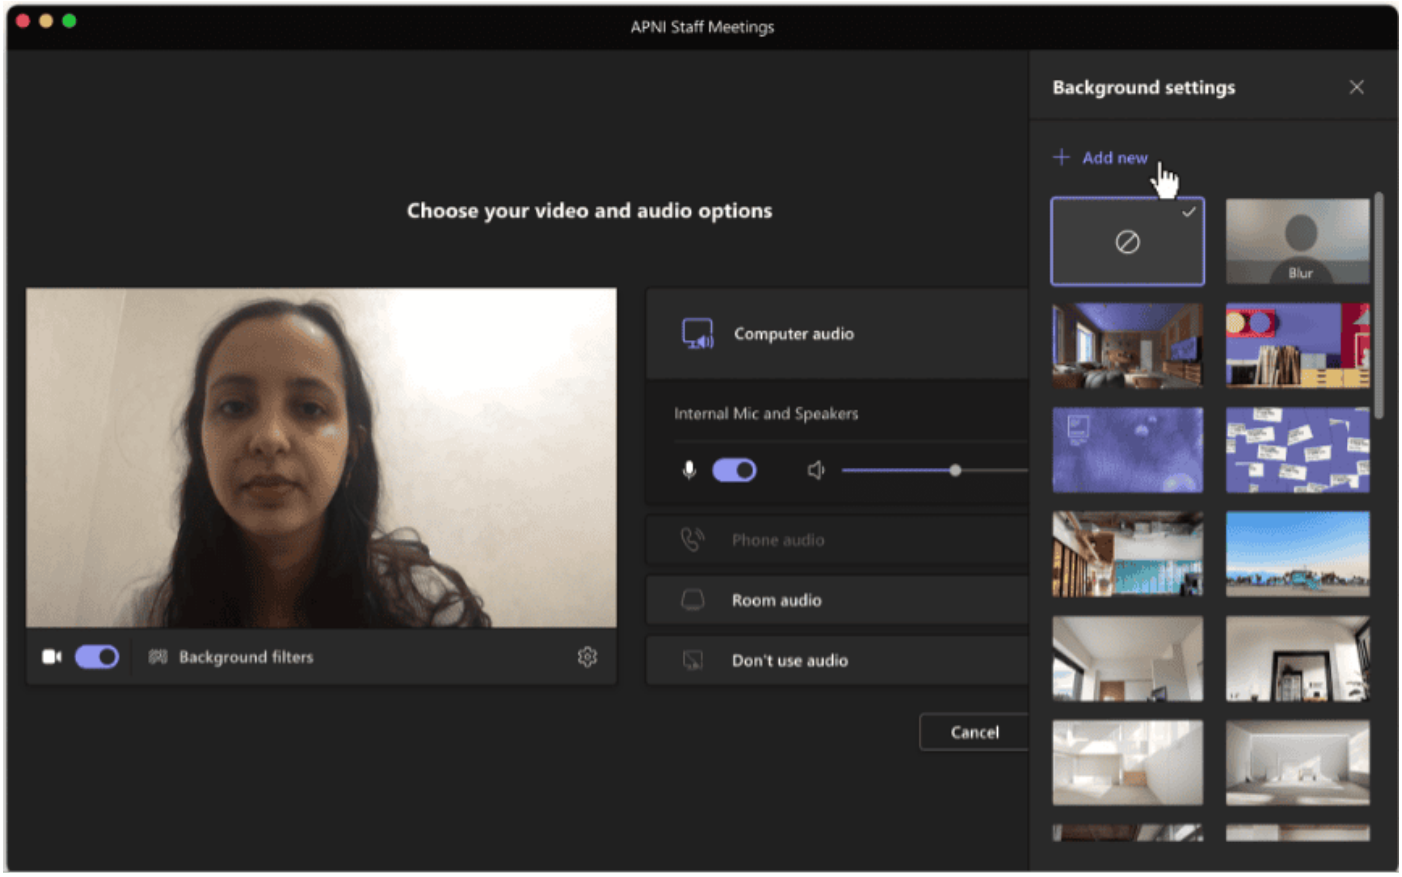
Step 1: join your call



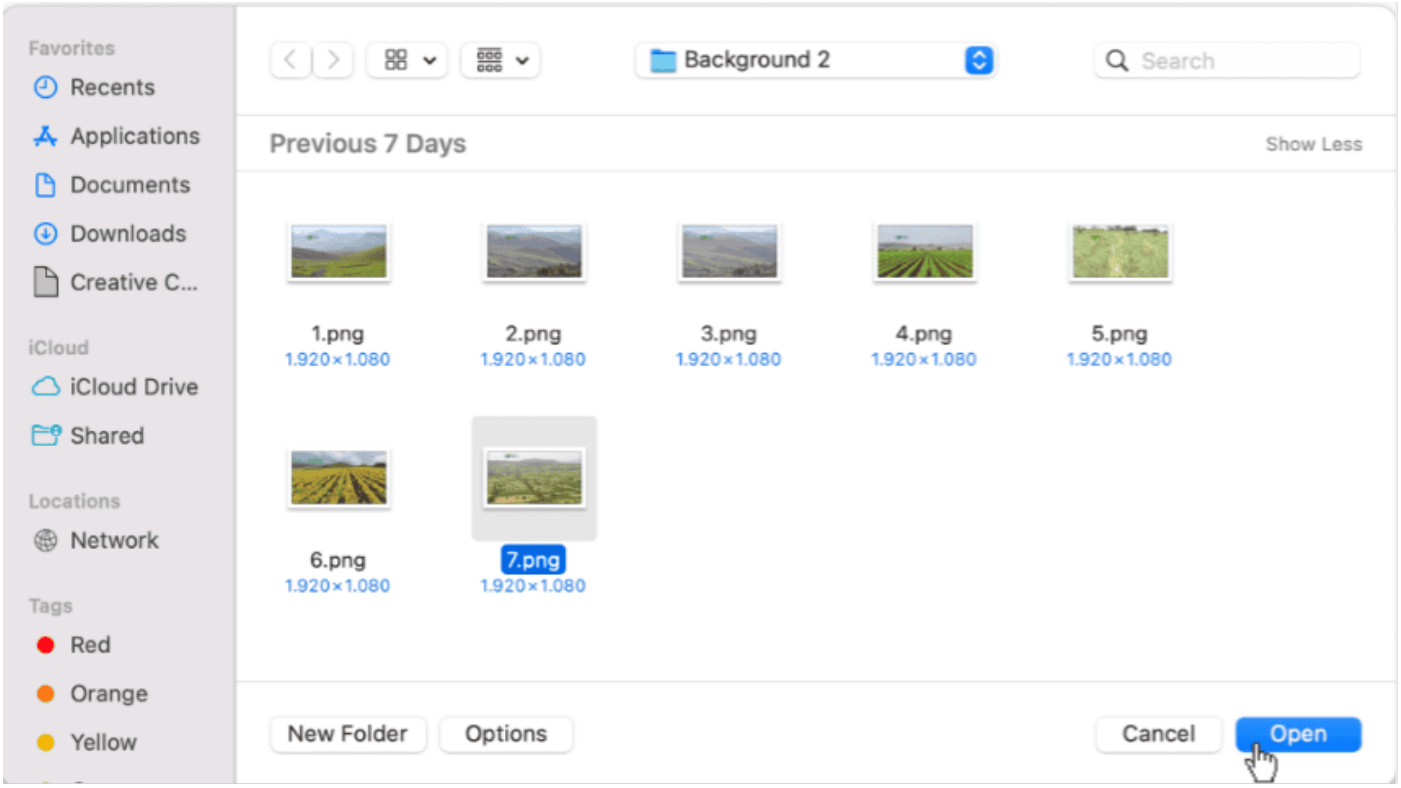
Step 2: activate your video camera and click on “background filters”



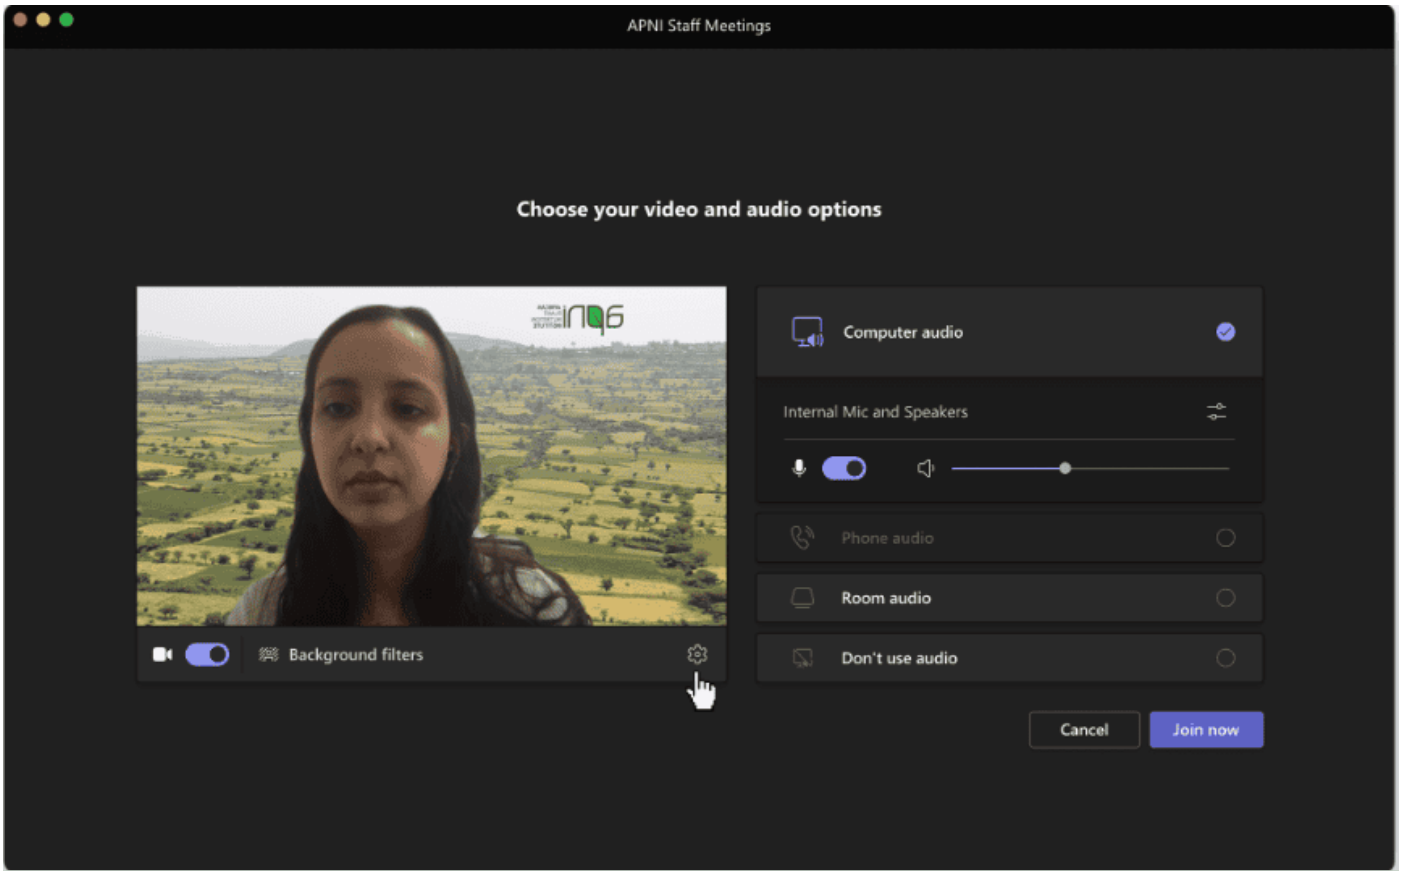
Step 3: on the top left of your screen, add a new background image



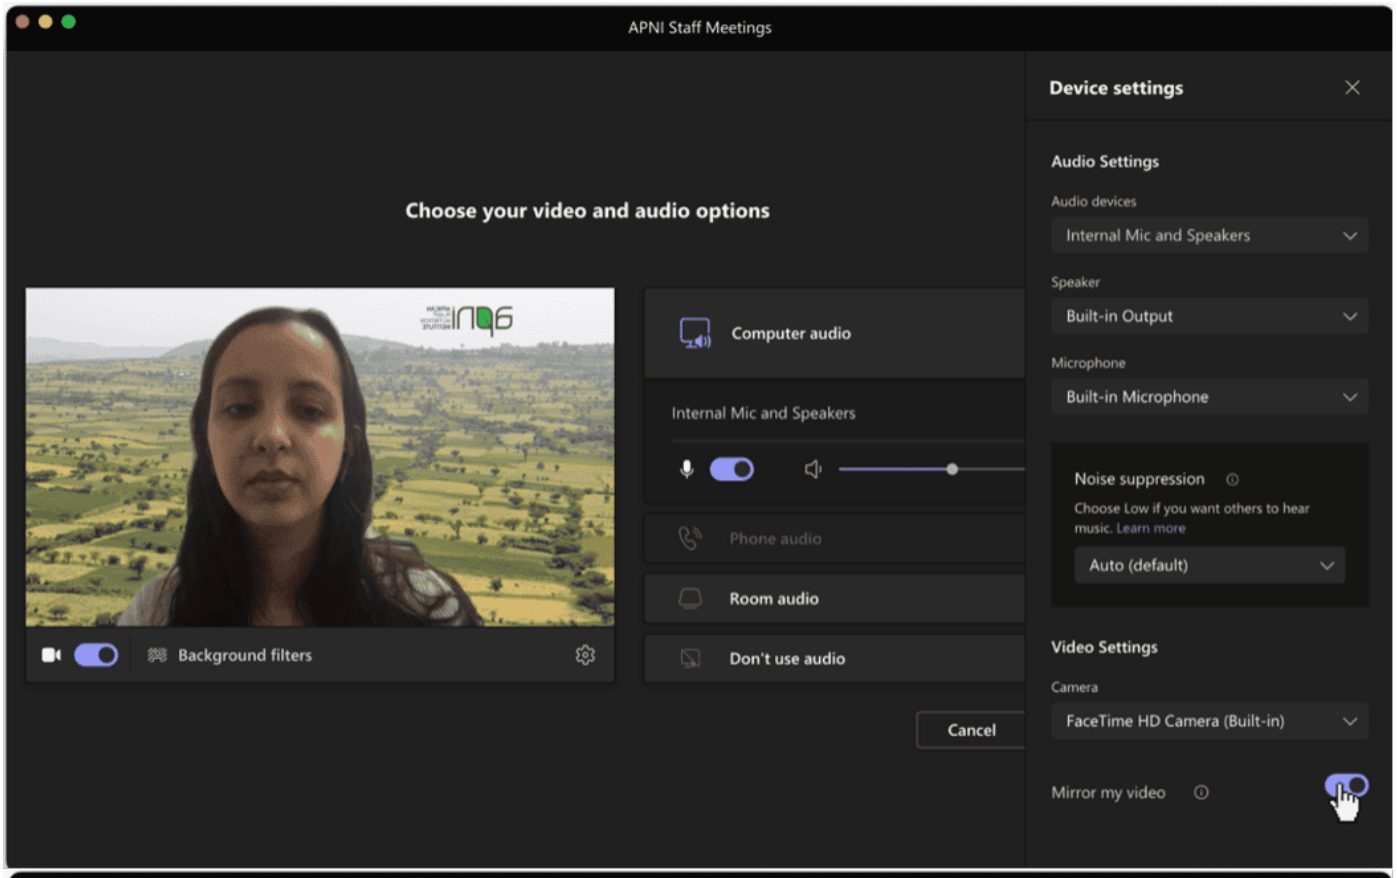
Step 4: select the image you like and click “open”

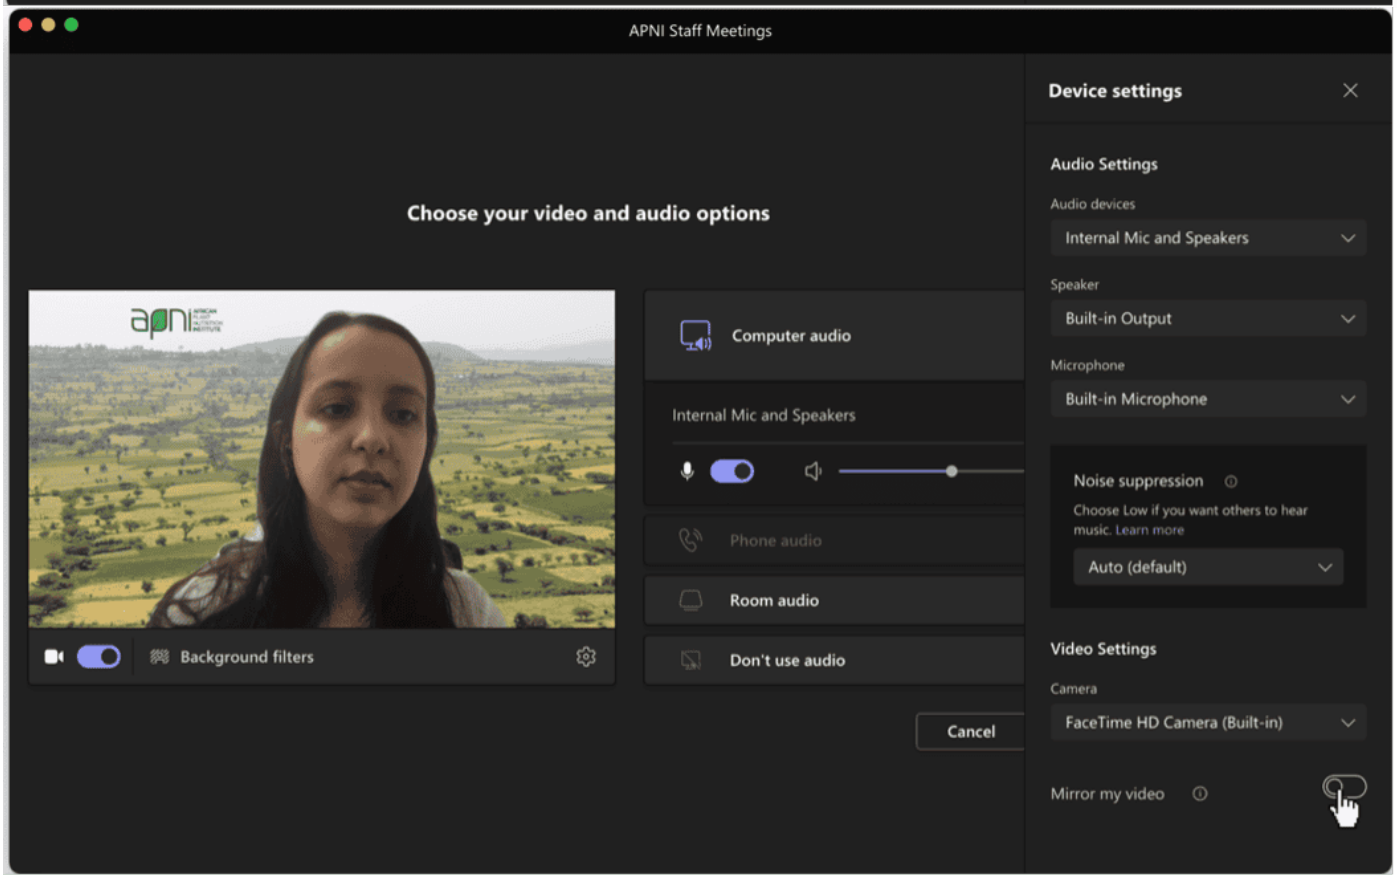


Step 5: after changing the background click on the setting icon at the bottom right of your video screen



Step 6: deactivate the “mirror my video” option at the bottom right of the window





Step 7: click “join now” to join the call
